SALUDO DÍA DEL ESTUDIANTE

El Directorio de la Corporación Educacional Colegio Trinity, quiere saludar a todos los y las estudiantes en el día del estudiante.

La Convención sobre los Derechos del Niño, aprobada el 20 de noviembre de 1989 por la Asamblea General de Naciones Unidas busca promover en el mundo los derechos de los niños y niñas, cambiando definitivamente la concepción de la infancia. Chile ratificó este convenio internacional el 14 de agosto de 1990, el que se rige por cuatro principios fundamentales: la no discriminación, el interés superior del niño, su supervivencia, desarrollo y protección, así como su participación en decisiones que les afecten. Uno de los derechos de los niños, niñas y adolescentes es el acceso a la educación. Es por eso que, en este día, queremos dar la importancia de acceder a una educación de calidad, que promueva el pensamiento crítico y que fomente la sana convivencia. Ustedes son el futuro de la humanidad y por esta razón les homenajeamos en su día.

"La educación es el arma más poderosa que puedes utilizar para cambiar el mundo." Nelson Mandela

Se despiden atentamente

THE NATIONAL CURRICULUM FRAMEWORK

The National Curriculum Framework for School Education is designed to provide a common set of guidelines for all schools in the country. It is based on the National Education Policy, 2020, and aims to ensure that all children receive a quality education that is relevant to their lives and prepares them for the future. The framework is organized into three main areas: School Education, Higher Education, and Technical Education. It outlines the objectives, content, and assessment methods for each level of education, ensuring a holistic and integrated approach to learning. The framework also emphasizes the importance of skills development, including critical thinking, problem-solving, and communication skills, to equip students with the necessary tools for success in a rapidly changing world.

The framework is designed to be flexible and adaptable to the needs of different regions and communities. It provides a clear path for the development of the curriculum, ensuring that it is aligned with the national goals and standards. The framework also includes provisions for the inclusion of marginalized groups and students with special needs, ensuring that all children have access to quality education. The framework is a key document for the Ministry of Education and will guide the development of the national curriculum for all levels of school education.

The framework is a landmark document that will shape the future of Indian education. It is a testament to the government's commitment to providing a quality education for all children and to building a strong and vibrant nation. The framework will be implemented in a phased manner, starting with the school education level, and will be reviewed and updated as needed to ensure its relevance and effectiveness.
